Omerta starring Rajkummar Rao hit the screen this Friday after the Censor Board cut nude scenes from the film.

Under the direction of Hansal Mehta, earlier some scenes from the film were showcased that portrayed frontal nudity of the actor and some scenes played national anthem in the background as well. Some character in the film was urinating. Censor Board has cut off those nude scenes that went against the guidelines set by the CBFC.

The Director had spent quite some time to request the censor board to avoid cutting off these scenes.
